IT'S IN OUR DNA

Welcome to Deceuninck North America

As global leader in the PVC fenestration industry, Deceuninck leverages cutting-edge science and technology in the development, manufacture, and delivery of innovative and sustainable products for window and door systems. We provide our manufacturing partners with unparalleled expertise and support, ensuring that our products and service not only meet but exceed the highest industry standards.

A LOCAL COMPANY WITH GLOBAL PERSPECTIVE

Deceuninck North America is part of the Deceuninck Group, an integrated global organization active in over 90 countries and supported by 3,900 personnel worldwide. Deceuninck North America holds more than 200 patents on designs, processes, technologies, and material science.

From our North American headquarters in Monroe, Ohio and our Fernley, Nevada facility, Deceuninck North America ships products to fabricators across the U.S. and Canada. Collectively, Deceuninck customers manufacture over 7 million windows and doors annually for residential and commercial buildings.

Our commitment to reliability, innovation, and sustainability position us as an industry leader in energy-efficient windows and doors. We leverage our global reach and local expertise to deliver cutting-edge solutions that meet the highest standards of quality and performance.

Framing the future together

RELIABILITY

SUSTAINABILITY

COMMUNITY

RELIABILITY

At Deceuninck, reliability is at the core of our business, built on strong customer partnerships and a commitment to exceptional product performance backed by rigorous testing. We invest in hiring the right people, providing extensive technical services, and optimizing inventory management to meet our customers' needs with precision and efficiency. By enhancing our capacity and delivering consistent results, we remain a trusted partner in driving success.

Technical Solutions

With Deceuninck, you get more. Expect more from your extrusion partner. With Deceuninck, you get one of the world's most knowledgeable and experienced engineering and technical teams working at your side to assist in developing your product while maximizing quality, efficiencies, and bottom line.

WORLD-CLASS ENGINEERING

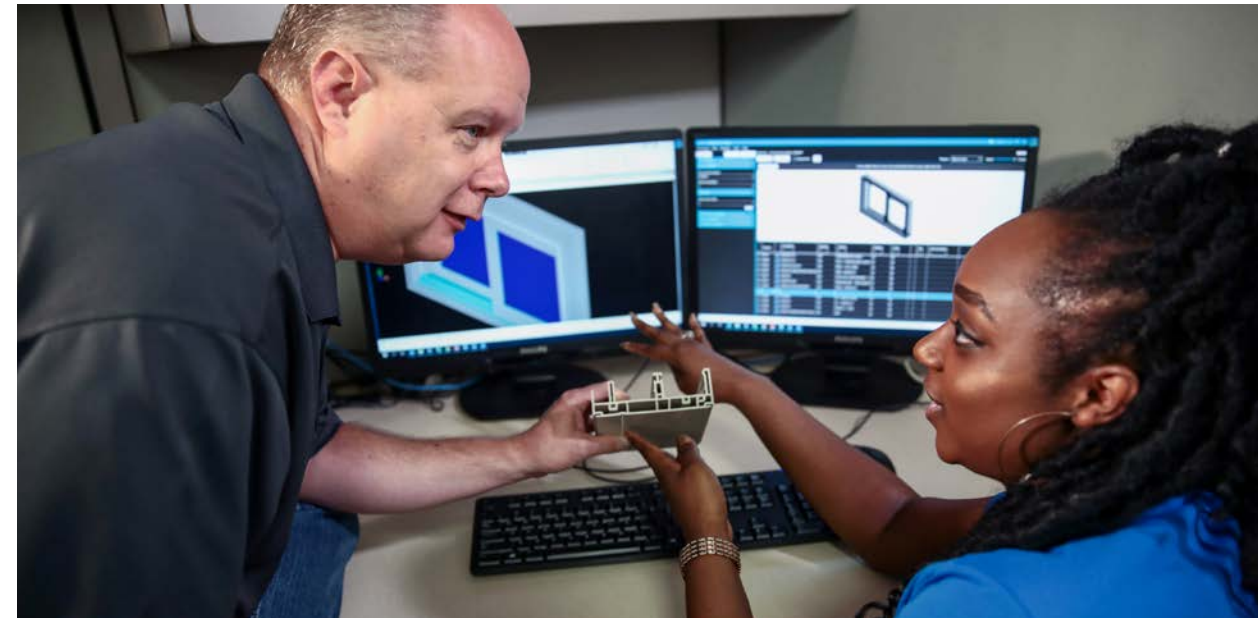

From custom modifications to proprietary systems designed and offered exclusively for you, our expert engineering ensures that your specific needs are met with precision and innovation, delivering high-quality, customized solutions that set you apart in the market.

COMPREHENSIVE TESTING

Whether it's in the lab, on the test wall, or in the field, Deceuninck's rigorous 3rd party certified material and system performance testing ensures that your products meet or exceed industry standards and your expectations.

ON-SITE TRAINING & SUPPORT

We empower our customers to achieve optimal production and system performance through a range of services, including analysis, selection, procurement, and implementation of window manufacturing equipment, coordinating efforts with all essential personnel, and leveraging extensive industry experience to support customer start-ups, which includes being on-site with customer teams.

Operations

Built for the challenges of today and tomorrow. Deceuninck's operations are designed to adapt and thrive in the face of today's challenges, leveraging advanced technologies and innovative practices to ensure resilience and efficiency. With a forward-thinking approach, we are not only prepared for current market demands but also positioned to lead in the evolving landscape of tomorrow.

THE RIGHT PEOPLE

A company is only as strong as the quality of its people. That's why Deceuninck invests in hiring top industry professionals with proven track records. It also means hiring and retaining a world-class workforce through the right combination of compensation, benefits, opportunities, and work-life balance.

OPTIMUM INVENTORY MANAGEMENT

Deceuninck works with customers to analyze inventory and demand needs to optimize product ordering and fulfillment.

ENHANCED CAPACITY

Recent investments in manufacturing significantly enhance our capacity to stay ahead of market demand. Now, with more than 70 production lines, Deceuninck is one of the largest PVC extruders in the industry.

INNOVATION

Deceuninck's commitment to innovation drives the development of cutting-edge solutions that meet the evolving needs of our customers. From proprietary systems to advanced material technology, we continuously push the boundaries of design and performance. By investing in research and development, we ensure our products deliver exceptional quality, efficiency, and sustainability, setting new standards in the industry.

Material Science

Next gen material science and systems, only from Deceuninck. Deceuninck invests heavily in R&D to ensure you stay ahead of your competition.

ECLIPSE BLACK PVC

In response to soaring market demand for dark colored windows and doors, Deceuninck's material scientists have developed ECLIPSE, a black solid color PVC as an innovative alternative to laminate, capstock, or paint. ECLIPSE is a market differentiator, engineered to deliver in-demand aesthetics with essential performance features while also reducing customer manufacturing costs for colored products.

SUNSHIELD® HIGH-PERFORMANCE VINYL

Vinyl windows and doors now endure far longer and more beautifully with SunShield vinyl — even in the hottest and sunniest geographies. Only Deceuninck customers provide this proprietary formulation that significantly extends product lifecycle and value.

INNERGY® RIGID THERMAL REINFORCEMENTS

Innergy polyurethane and fiberglass reinforcement shapes can provide the strength of aluminum but with 700 times better thermal performance. This revolutionary game-changer is available only through Deceuninck.

Tilt & Turn

Systems

Deceuninck's advanced window systems are designed to meet the diverse needs of both new construction and replacement projects. Our versatile configurations include double-hung and single-hung windows, double-slider and single-slider options, casement and awning windows, tilt/turn systems, and picture windows. Additionally, we offer sliding and hinged patio doors to complement any design. Engineered for exceptional performance, our window and door systems achieve some of the highest industry standards, including Hurricane Impact Resistance for coastal applications and Passive House certification for ultra-energy-efficient buildings. With Deceuninck, you get innovative solutions that combine durability, energy efficiency, and style for every application.

SUSTAINABILITY

Deceuninck North America is committed to sustainable practices in all that we do. Our sustainable production process dictates how we source materials, how we design and manufacture products, and how those products are shipped and delivered. We are a leader in supplying energy efficient products that reduce thermal heat gain in the summer and heat loss in the winter by meeting increasingly stringent requirements and building codes.

Environmental Stewardship

Enhancing sustainability through products and bold environmental commitments. From the window and door systems we design and engineer to the way we conduct our business and operations, Deceuninck is at the forefront of energy efficiency and sustainability. Our commitment to these principles drives us to create products that not only meet the highest standards but also contribute to a greener, more sustainable future.

SUSTAINABLE PRODUCTS

Today's building codes demand more energy efficient solutions. Deceuninck systems meet these demands by reducing solar heat gain in summer and heat loss in winter, helping to meet stringent ENERGY STAR® requirements and building codes. When you choose Deceuninck, you're offering high-performance products while supporting a sustainable production process that includes responsible material usage, design and manufacturing practices, and eco-friendly packaging and shipping methods.

NET-ZERO COMMITMENT

Deceuninck North America has set ambitious goals to significantly reduce greenhouse gas emissions. Globally, Deceuninck commits to reducing CO2 emissions 60% by 2030, with a goal of achieving the Net-Zero Standard by 2050.

Certifications

GREEN CIRCLE CERTIFIED

Deceuninck products and operations adhere to ISO 1402, Definition of Recycled content, and the FTC Green Guides.

VANTAGE VINYL®-VERIFIED

A vinyl supply chain-wide initiative, Deceuninck earns this distinguished mark by meeting stringent requirements for resource efficiency, emissions, and health and safety.

COMMUNITY

Whether it's person by person or window by window, Deceuninck is committed to being a driving force for good in our communities. Since our beginning, Deceuninck has encouraged our employees to be involved in activities that improve the quality of life for all members of their local communities.

The C3 Program

Compassion for Community and Causes (C3 Program) was created to communicate and formalize our commitment to our employees and their communities. C3 encourages every employee to be more engaged in their own communities by providing direct support and funding for various causes.

HABITAT FOR HUMANITY

Deceuninck works with the local Habitat for Humanity to supply windows for projects, while employees volunteer on the job site or at a local ReStore to support the building of local, affordable housing.

LOCAL SCHOOLS & YOUTH SPORTS

We provide support to local, colleges and youth sports, including school fundraising, high school football, little league, basketball, and junior achievement.

WREATHS ACROSS AMERICA

Deceuninck is a corporate sponsor of the Middletown Wreaths Across America event. A community gathering to place wreaths on the graves of fallen soldiers during the Christmas season, to Remember, Honor and Teach the next generation.
